

DILSHAN THALAGAHAPITIYA

Software Engineer (iOS)

Kurunegala, Sri Lanka | +94763003678 | dilshan.thalagahapitiya11@gmail.com

LinkedIn: <http://www.linkedin.com/in/dilshan-thalagahapitiya-a06300159>

I am a Software Engineer with three years of experience specializing in native iOS development. I am currently looking for a position that will allow me to improve my talents further while contributing to the organization's growth. I am eager to develop high-quality iOS applications and stay updated with new industry trends, bringing fresh ideas and a proactive attitude. I am looking forward to joining a company that values creativity, collaboration, and professional growth.

SKILLS

Programming Languages: Swift, C, HTML, CSS

Frameworks: SwiftUI, CocoaPods

Other Technologies: Git (Bitbucket), Sourcetree, Postman, Firebase, XCode MVVM

Graphic Designing: Photoshop

UI/UX Prototyping: InVision, Sketch

WORK EXPERIENCE

Software Engineer

Dec 2025-Present

Crede Technologies, Vancouver, British Colombia, Canada

- Developed high-performance iOS applications using Swift, delivering responsive and scalable mobile experiences.
- Integrated REST APIs and third-party libraries to enhance application functionality, performance, and user experience.
- Conducted code reviews, debugging, unit testing, and quality assurance processes to maintain high code quality and minimize defects.
- Collaborated with cross-functional teams to deliver feature-rich applications aligned with business and user requirements.

IOS App Developer

Sep 2023-2025

Elegant Media, Colombo, Sri Lanka

- Use Swift to create high-performance iOS apps and boost user engagement by 20%.
- Integrate APIs and third-party libraries to improve app functionality and user experience.
- Use technologies like SwiftUI and InVision to create an intuitive UI/UX, increasing accessibility and enjoyment.
- Conduct code reviews and testing to ensure 99% quality and minimum errors.

Trainee IOS App Developer

Mar 2023-Sep 2023

Elegant Media, Colombo, Sri Lanka

- Worked with senior engineers to tackle technical issues, improving app stability and ensuring over 90% user ratings.
- Proficient in managing the whole app lifecycle, from development to App Store distribution.
- Researched developing iOS technologies and helped implement new features.
- Used Git, Postman, and Firebase for quicker web deployment and efficient version control.

Intern IOS App Developer

Sep 2022-Mar 2023

Elegant Media, Colombo, Sri Lanka

- Assisted in writing 100% clean, maintainable Swift code for minor app features and bug fixes.
- Participated in daily stand-ups and sprint planning, contributing to a high improvement in efficiency.
- Performed app testing and reported bugs, enhancing app stability and user experience.

- Researched and documented best practices for iOS development, aiding team knowledge sharing.

EDUCATION

Bachelor of Information Communication Technology	2018-2023
Rajarata University of Sri Lanka	
• GPA - 3.17	
G C E Advanced Level Examination	2014-2017
C.W.W Kannangara College, Kurunegala, Sri Lanka	
G C E Ordinary Level Examination	2012-2014
Royal College Wayamba, Sri Lanka	

PROJECTS

“How Did You Survive” (Application)

Technology: [SwiftUi](#), [CoreData](#), [Firebase](#), [Swaggers](#)

- This social networking and entertainment platform evolved from concept to successful App Store release. I oversaw the development process, including secure authentication, push notifications, post management, and comprehensive search and filtering functionality. I handled both front-end design and back-end integration, as well as all areas of the app's functioning, to ensure a seamless, secure, and entertaining user experience.

“BuildersBuys” (Application)

Technology: [SwiftUi](#), [CoreData](#), [Firebase](#), [Swaggers](#)

- This iOS app is designed for the construction sector. It allows employers and supervisors to register, manage staff, and list civil engineering items such as electrical equipment, bricks, and steel. Registered users can also effortlessly purchase things, streamlining procurement and making it a valuable tool for construction businesses and professionals.

“PokerPortal” (Application)

Technology: [SwiftUi](#), [CoreData](#), [Firebase](#), [Swaggers](#)

- The software aims to create a global poker community akin to "Flop," with facilities for tracking game statistics, advice, and cash-outs. Users may discover Texas poker rooms, get live streams and news, join communities, and use the waiting list. The portal offers a marketplace for poker-related products, tutoring, and stakes, with integrated payment alternatives.

“Contract Connection, Single Touch, Fatch” (Applications)

Furnace Oil Consumption Measuring Tool

Technology: [C](#), [Arduino Hardware](#)

- This application was built to provide a solution for measuring the oil level of the furnace by providing an IoT-based system for **Ceylon Auto Industries (Pvt) Ltd**

Automated Water Supply System To Crops

Technology: [C](#), [HTML](#), [Arduino Hardware](#)

- This IoT-based application was built for the "SAWUBHAGYA" Plant nursery to reduce water wastage.

Smart Hydroponic System Using IoT and Machine Learning (4th Year Research Project)

Technology: [C](#), [Arduino Hardware](#), [SwiftUI](#)

- Suggested as the 4th year research project for my BIY degree at the Rajarata University of Sri Lanka. I handled the entire hardware management and Arduino coding process.

Smart Shopping System Using Consumer Behavior Prediction (3rd Year Group Project)

Technology: [C](#), [Arduino Hardware](#)

- This was the 3rd year group project for the BIT degree. I Handled hardware management and the Arduino coding process.

Tuition Class Management System (2nd Year Group Project)

Technology: C, Arduino Hardware

- I handled hardware management, Arduino coding, and web back-end development.

Class Management System (1st Year Group Project)

Technology: Python

- I handled all the coding processes for the project.

CERTIFICATE S

- IFaS Travelling University Helping to project (2020)
- Huawei HCIA-5G (2020)
- ImagineIF ICTA – First Runner-up in Innovative Projects (2019)

LANGUAGE S

- Sinhala
- English
